

2021 REPORT OF CT NONPROFIT WAGES + BENEFITS

For organizations, compensation data is crucial to sustaining nonprofits' missions and teams. It is important for nonprofit leaders to have the necessary data to help understand their responsibility to align compensation with their organizational values, to support fair and consistent compensation practices, and to continue to work to advance equity and inclusion within their organizations and communities.

ABOUT THE SURVEY

The Alliance will survey nonprofits across Connecticut to compile wage and benefit information in order to produce a comprehensive report of wages and benefits that will be published in early 2022 and made available to all nonprofits at no cost to help them offer competitive compensation to their workforce.

Your participation in the survey is critical to ensuring an accurate and comprehensive report to help you stay aligned to the best compensation practices.

JOIN US INFORMATIONAL SESSION

On September 28, 2021 at 2PM we will host an Informational Session on Zoom, to walk through the preparation worksheet, and the survey itself which will take about 30 minutes to complete assuming you have gathered all of the required data. We will answer any questions you may have to prepare for the survey launch in October.
