Fund or Foundation?

Find out whether a donor-advised fund meets your needs better than a private foundation.

A private foundation can help you accomplish philanthropic goals. But donor-advised funds are often a more flexible and cost-effective option for achieving similar results. When you create a donor-advised fund at the Community Foundation, you can recommend grants while we handle all recordkeeping and administration - bypassing the hands-on legal, financial, and administrative management required by a private foundation. A donor-advised fund also offers greater and more immediate tax benefits, with an option to give anonymously if so desired.

Convert a Private Foundation

Find out how to make the switch to a donor-advised fund.

Over time, private foundations can run their course or may simply no longer be the best way to maximize your charitable goals. If the responsibilities of managing your private foundation have become overwhelming or the costs impractical, talk with us about converting to a donor-advised fund at Fairfield County's Community Foundation. This can lighten your administrative load, while you continue to support causes and nonprofits that matter to you. You can also benefit from our expert investment strategies and community grantmaking expertise, while ensuring that your philanthropic intentions will be carried out for future generations.

What steps are required?

Our knowledgeable team can help you navigate the following basic steps to convert your private foundation into a donor-advised fund.

Get Board Approval. Your board must review state laws and governing documents to confirm that dissolving your private foundation is permissible.

Pay All Outstanding Liabilities. Assets in a donor-advised fund can only be used for qualifying charitable purposes. So, any outstanding obligations such as taxes, grant payments, or fees must be paid before you transfer assets from your private foundation. A reserve must also be created for any additional anticipated expenses.

Create a New Fund. Work with our staff to set up a donor-advised fund. We make it easy and fast for you to select your preferred name (you may choose to keep your foundation's name), advisors, and investment strategy.

Transfer Your Assets. Fairfield County's Community Foundation is a public charity, so transferring assets from your private foundation is similar to issuing a grant to any other charity. We can accept various asset types such as cash, stock, and real estate. If you have complex or illiquid assets, talk with us about the best way to proceed.

Complete a Final Tax Filing. After the asset transfer is complete, you'll need to complete all final tax paperwork with the state of origin and the IRS—including the final Form 990—before your private foundation is officially dissolved.

"The support we got was amazing, and the transition to Fairfield County's Community Foundation was seamless."

Dennis Torres, Communications Advisor, The Amalia & Nicola Giuliani Foundation for Religion & the Arts

Investment Advisor Program

Keep your own investment advisor, and partner with us to give.

Through our Investment Advisor Program, a donor may set up a new fund at the Community Foundation and work with their personal investment advisor on a customized investment approach. The donor benefits from our program expertise in reaching their philanthropic goals, while the advisor continues to represent their client in managing charitable assets.

Customization at this level could include both traditional asset classes and, in some circumstances, alternative investments. Assets continue to be held at the investment advisor's institution, while ownership of the assets transfers to Fairfield County's Community Foundation.

Fees

Fairfield County's Community Foundation collects the following administrative fees for administrative services including, but not limited to, professional advice and consultation regarding grantmaking, strategic philanthropic planning, in-depth knowledge of local charities, and access to online fund information including grant processing and fund statements.

- 1.0% on the initial \$1 million in assets**
- 0.9% on incremental assets from \$1 to 1.99 million**
- 0.8% on incremental assets from \$2 to 2.99 million**
- Fee assessment decreases for funds \$3M+**
- .10% fee discount for permanent funds**

Minimum annual fee: \$1,000
Minimum grant amount: \$500

The fee for investment services will be negotiated by the Community Foundation and the donor's investment advisor, and will be disclosed to the donor when the fund agreement is executed. All fees are charged at the fund level.

Individually managed accounts with balances below \$250,000 will be transferred to the Community Foundation's investment pool.

The Community Foundation's Investment Committee must approve the advisor selection and proposed investment strategy, working together to establish an asset allocation that is appropriate to the grantmaking goals of the donor. Other policy guidelines are applicable.

"To feel completely comfortable with a financial partner is a great blessing. Fairfield County's Community Foundation has earned my trust again and again with their local expertise and spot-on counsel."
